KILKENNY

LYRATH ESTATE SUSTAINABILITY POLICY

At Lyrath Estate, we are deeply committed to preserving the natural beauty of our surroundings and promoting sustainable practices that protect our environment for future generations. Situated in the heart of Kilkenny, we recognize our responsibility to operate in harmony with nature and contribute positively to our local community. This policy outlines our dedication to sustainability across all aspects of our operations.

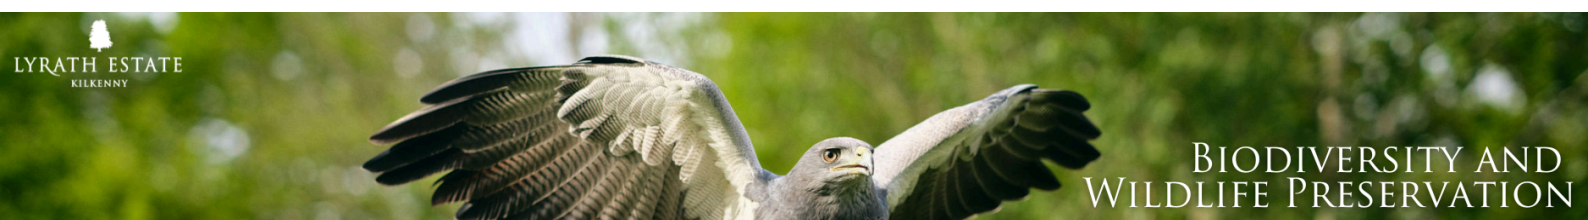

1. Conservation of Natural Resources

- We actively work to reduce water and energy consumption throughout the estate by implementing efficient systems and encouraging responsible usage among our staff and guests.
- Our property leverages renewable energy sources and energy-efficient technologies wherever possible.

2. Waste Management:

- Lyrath Estate is committed to minimizing waste through comprehensive recycling programs, composting initiatives, and reducing single-use plastics.
- We partner with local suppliers who share our vision for sustainability, prioritizing biodegradable and recyclable packaging.

1. Beehives and Pollinators:

- Our on-site beehives play a vital role in supporting local biodiversity. The bees not only contribute to the pollination of our gardens but also provide natural, estate-produced honey that is featured in our culinary offerings.

2. Gardens and Green Spaces:

- Our beautifully maintained gardens are cultivated with native plants to promote ecological balance and support pollinator species.
- We have dedicated areas for organic vegetable and herb gardens, which supply fresh, seasonal produce to our kitchens.

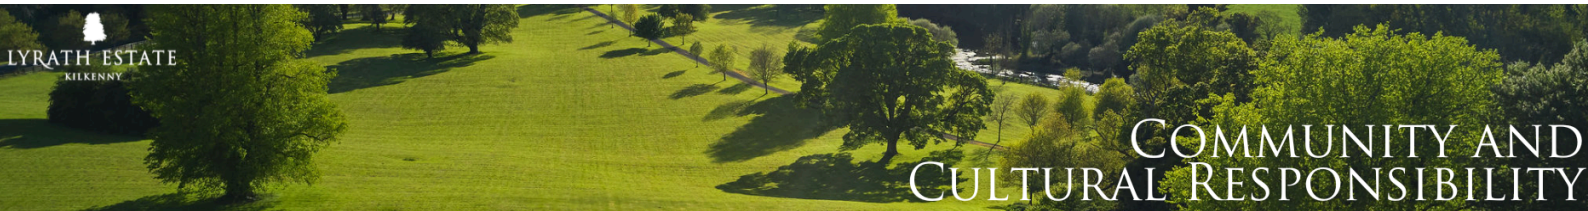

1. Guest Engagement:

- We encourage guests to participate in our sustainability efforts by offering eco-friendly options such as linen reuse programs and refillable toiletries in guest rooms.
- Educational opportunities are provided through guided tours of our gardens and beehives, highlighting the importance of biodiversity and sustainable practices.

2. Local Sourcing:

- Our menus feature locally sourced ingredients to reduce our carbon footprint and support regional farmers and producers.
- We prioritize partnerships with businesses that share our commitment to sustainability.

1. Supporting the Local Community:

- Lyrath Estate actively engages with the Kilkenny community by participating in environmental clean-up initiatives and supporting local charities.
- We celebrate and promote local heritage through events and collaborations with regional artisans.

2. Education and Awareness:

- Our team members receive training on sustainable practices, ensuring that environmental consciousness is embedded in our day-to-day operations.
- We aim to inspire our guests to adopt sustainable habits by showcasing practical examples during their stay.

Continuous Improvement

Lyrath Estate is committed to the ongoing evaluation and enhancement of our sustainability initiatives. We regularly review our policies, set measurable goals, and embrace innovations that allow us to reduce our environmental impact further.

Join Us in Making a Difference

We invite our guests, partners, and team members to share in our vision for a more sustainable future. Together, we can ensure that Lyrath Estate remains a haven of natural beauty and responsible luxury for generations to come.
